## Worthington Foods, Inc./Kellogg's Receives EODA Outstanding Large Business

Pictured (l to r): Commissioner Mollie Crooks; Nate Smith, Kellogg's HR Manager; Commissioner Cindy Cameron; Matt Abbott, ZMCPA Executive Director

This award seeks to recognize excellence for entrepreneurs promoting technology including employment growth or job creation, innovation programs involving employees and community projects, new technological expansion, community service encouragement and activities which have resulted in statewide, national or international attention for the region.

In 2020, Kellogg's announced they would be investing \$43 million to expand the Zanesville facility by 50,000 square feet. The company plans to add 40 additional employees to its workforce as a result of the expansion. The expansion will assist with increased production needs for the company's **Incogmeato** line, introduced in 2019, as increased consumer demand for the company's vegan products increases. Last year, Kellogg's donated \$1M of their Incogmeato plant-based protein products to Feeding America, the largest domestic hunger-relief organization in the United States. Food Banks have not only faced a shortage of supply during the Covid pandemic, one of the least donated items is fresh protein. *Click on the Incogmeato logo to learn even more.*

One of the true infrastructure assets in our community is the **Zanesville Municipal Airport (ZZV)**. It is located approximately six miles east of Zanesville and one mile south of I-70 Exit 160. ZZV has two runways, one 5,000 and one 4,999 feet, which means it has the ability to accommodate corporate jets. Additionally, instrumentation landing (ILS/DME) is available on one of the runways.

**Zanesville Aviation** is located at the Zanesville Municipal Airport and has provided safe and reliable transportation to the aviation community for over 70 years. Zanesville Aviation is the premier air-charter service and fixed-base operator for the central Ohio area. Based at the Zanesville Municipal Airport, customers can find charter service, aircraft management, and transient aircraft FBO services.

Businesses looking to locate in our area have a true advantage with Zanesville Municipal Airport and Zanesville Aviation. This is another key reason that **#SuccessLivesHere**.

The **Ohio Aviation Association (OAA)** honored **Representative Adam Holmes** (R-District 97) as the 2021 Legislator of the Year. This award recognizes a state legislator for continued support and leadership in advancing policies and the vision of Ohio's airports and aviation. Ohio's airports are economic engines for their communities, and beyond, and it takes keen legislators to appreciate and use these assets to propel Ohio.

Rep. Holmes is currently the CEO of Frueh Enterprises, a mechanical and industrial contracting company that has operated in Zanesville for over 80 years.

Rep. Holmes is a participant in the **Zanesville Municipal Airport's** long-term planning process, working to increase the viability of the airport's ability to attract companies to Muskingum County. Additionally, Representative Holmes continues to lead the **Ohio Aerospace and Aviation Technology Committee (OAATC)**,

We are proud to share the second video in a series promoting Zanesville and Muskingum County. This project was made possible by a generous grant partnership with Ohio Means Jobs - Muskingum County (OMJ). The Zanesville Muskingum County Port Authority, Zanesville Muskingum County Chamber of Commerce, and Zanesville Convention and Visitor's Bureau were able to join with OMJ to showcase our area.

## Made In Ohio.

Find Hundreds of Amazing Locally Made Products

The Ohio Department of Development and TourismOhio launched a new webpage to highlight products made in Ohio. The *Made in Ohio* page lists nearly 800 companies in categories such as apparel, snack foods, coffee, décor, and furniture.

*"We work every day to support Ohio's business community, especially our small businesses," said Lydia Mihalik, director of Development. "The new Made in Ohio webpage is an extension of our 'support local' campaign and highlights many great products made right here in Ohio."*

Development and TourismOhio cultivated the listings and included businesses that make or manufacture products in the state of Ohio and have a storefront and/or website where their products are sold. Listings link directly to the company website so customers can purchase the products directly from the company.

For more information on how to have a company listed on the site, visit [Ohio.org/MadeinOhio](http://Ohio.org/MadeinOhio).
